SEISMIC DESIGN WITH EXAMPLES SEMINAR

Structures and Codes Institute (a continuing education subsidiary of S. K. Ghosh Associates Inc.), in cooperation with the International Code Council and the National Council of Structural Engineers Associations, will present the following new seminar:

Seismic Design Provisions in the New CA Building Code, Including Design Examples

This seminar is designed to present a complete overview of the seismic design provisions of the 2006 IBC/2007 CBC. Following a presentation of the equivalent static force procedure, topics such as dynamic analysis, orthogonal effects, anchorage of walls to diaphragms, and diaphragm design are covered. Comparisons are made with the corresponding provisions of the 1997 UBC, whenever that is practicable. Also, importantly, several numerical examples are included, illustrating some of the most frequently used code provisions. While much attention was paid to seismic design in our "Transitioning to the New California Building Code (Structural Provisions)" seminar, this seminar provides more thorough coverage and dedicates the time necessary to fully understand the new seismic provisions.

A copy of the new six-page 2006 IBC Seismic Design CodeMaster will be included with the seminar workbook.

The seminar will be presented by the following speakers who have been involved with the development of national codes and standards:

- **S.K. Ghosh**, Ph.D., President, S. K. Ghosh Associates Inc., highly acclaimed speaker and author on seismic- and wind-related issues and concrete design.
- **Susan Dowty**, S.E., Project Manager for S. K. Ghosh Associates Inc., past Structural Secretariat for the IBC and consultant responsible for reorganizing the ASCE 7-05 seismic provisions.

The registration fee for the seminar is \$285.00 for SEAOC members and \$325.00 for nonmembers; the seminar fee includes seminar workbook, coffee breaks and lunch.

Time: 8:00 a.m. to 5:00 p.m.

Seminar registrants also have the opportunity to order the following publications at a 20% discount off our regular prices.

Please Select One	Book Order	2006 IBC		ASCE 7-05			2006 IBC Wind Design Provisions (Seminar DVD with workbook)	1997 UBC - 2006 IBC Structural Comparison & Cross Reference	2006 IBC Structural Q&A: Application Guide	Subtotal of Books	8% S/H (Books Only)	8.75% Sale Tax (Books Only)	Total Amount
		Soft Cover	Loose Leaf	Book only	CD only	Book & CD							
\$285 SEAOC Member	Price	\$84	\$94	\$100	\$100	\$148	\$120	\$32	\$36				
\$325 non member	Qty.												

FEE (payable to Structures and Codes Institute) MUST ACCOMPANY APPLICATION

Please complete one application per person. The seminar fee includes seminar workbook, coffee breaks and lunch. **All attendees earn 7.5 contact hours of continuing education.**

- Refunds are limited to 80 percent of fee and must be applied for in writing WITHIN THIRTY DAYS after the scheduled seminar.
- If registering one week or less prior to the seminar, a late fee of \$25.00 applies.

Seminar registration available by:

- Mail: Structures and Codes Institute, 334 East Colfax Street, Unit E, Palatine, IL 60067 • Phone: (847) 991-2700 • Fax: (847) 991-2702
- Register online www.skghoshassociates.com (New feature: fast and easy!)
